A well visitor is defined as having been screened appropriate for visitation based on questions related to their potential exposure to COVID-19 and symptom presentation. 	<ul style="list-style-type: none"> Visitor will be required to wash/sanitize hands before entering the unit. Patient and visitor must remain mask compliant or their visitation will be terminated.
<ul style="list-style-type: none"> Visitors will need to arrive 15 minutes prior to visitation and asked to wait in the front lobby on the first floor until called. 	<ul style="list-style-type: none"> Visitors are not allowed to bring up ANY belongings other than car keys. This includes cell phones, purses, jackets, etc.
<ul style="list-style-type: none"> If visitors arrive after the visitation time begins, they will be unable to visit at this visitation time and will have to come at next appointed time. 	<ul style="list-style-type: none"> Visitors and patients will be asked to social distance. Visitors and patients may have no physical contact.
<ul style="list-style-type: none"> Visitors will be asked to use the restroom prior to visitation as they will not be allowed to return to unit if they exit for any reason. 	

When bringing items for a patient, you will be asked to leave them with staff to be inventoried and searched. Outside food and beverages are not allowed.
